Objective

Passionate B.Tech student specializing in Computer Science and Engineering with a focus on Artificial Intelligence and Machine Learning. Eager to contribute to innovative projects and further develop technical skills.

Education

Asansol Engineering College, Asansol, India

B.Tech in Computer Science and Engineering (AI and ML)

August 2023 - Present

Vijaya P.U College, Jayanagar, India

Intermediate (Science)

Passed: 2023

Percentage: 84.33%

Assembly of God Church School, Sodepur, India

Matriculate(Science)

Passed: 2021

Percentage: 82.33%

Technical Skills

- **Programming Languages:** C, C++, Python
- **Frameworks & Tools:** GitHub, Visual Studio Code
- **Technologies:** AI/ML, Data Structures and Algorithms, Web Development

- **Languages:**Bengali (Native), English (Full Professional), Hindi (Full Professional)
-

Projects

Face Recognition Attendance

Aug 2024 - Present

- Developed a facial recognition system for automated attendance tracking.
- Utilized deep learning models like CNN for real-time identification and verification.
- Implemented data privacy measures to ensure secure handling of personal information.

ZERO - Intelligent Chatbot

Aug 2024 - Present

- Designed a chatbot using AIML for context-aware responses through NLP.
 - Features customizable templates and flexible conversation flows, scalable across industries.
-

Volunteer Experience

AIML Core Member, Google Developer Group (GDG)

Asansol Engineering College

Sept 2024 - Present

- Collaborated on AI/ML projects and workshops, fostering a learning environment for peers.
